Unified communications solution with CTI, presence management and instant messaging to improve collaboration for up to 40 workstations.

+ • SIP softphone for maximum flexibility and mobility in your day-to-day work routine
  • Screen sharing for smooth cooperation
  • Platform-independent – multi-device support with free choice of device
  • VideoChat from client to client
  • Presence management – availability of your employees at a glance

Your advantages in detail

With PBX Call Assist 3, organizations are able to improve their communications and collaboration internally and across company boundaries with partners, suppliers, and customers.

In addition to proven CTI, instant messaging, presence management, screen sharing and federation, PBX Call Assist 3 also provides audio/video (WebRTC-based) capabilities. Softphone functionalities (SIP) and a smartphone integration via Bluetooth with the Windows clients are also included.

The PBX Call Assist 3 software and user licences can be obtained from the Online Shop directly. You do not need to purchase separate LAN TAPI licences to operate PBX Call Assist 3. Without user licences the software can be used in demo mode for 45 days.
PBX Call Assist 3
