COMfortel® Xtension300

Add-on module for the COMfortel 2600, 2600 IP, 3200, 3500 and 3600 IP telephones with 30 additional, freely programmable function keys.

- Stable mechanical connection with special connector
- Can be expanded to max. 3 add-on modules
- 30 keys each with 2 levels and multi-coloured LEDs for 60 (system) functions and speed dialling programmable
- Second function level can be accessed by double-clicking or simultaneously holding down the Shift key
- Convenient configuration and creation of the key descriptions via the telephone's web server

The 15 freely programmable keys on the basic device are not enough? Do you need additional function keys so you can use SIP or system functions at the touch of a button? Then extend your COMfortel telephone easily with up to 3 COMfortel Xtension300 key extension modules. The maximum extension provides you with up to 210 function keys with which you can easily and clearly perform speed dialling or other functions.
